EDUCATION

University of Houston

BS in Computer Information Systems

Houston, TX

August 2022 – May 2027

- Relevant Coursework: Applications Programming (Python), Information Systems Application Development, Web Application Development, Information Security, IS Infrastructure & Networking

EXPERIENCE

Piano Lesson Teacher

Sugar Land Music School

September 2024 – Present

Houston, TX

- Provide weekly piano lessons to 20+ students with 1-on-1 private instruction tailored to each student's goals, tracking progress and delivering constructive feedback
- Develop structured lesson plans to build musicality, theory, and technical abilities while fostering a positive learning environment

Restaurant Host

Jinya Ramen Bar

February 2023 – February 2024

Houston, TX

- Managed guest seating, waiting lists, and front-of-house workflow during peak hours, optimizing table turnover and reducing wait times

Digital Operations Assistant

Elevator Magazine

March 2021 – December 2022

Chicago, IL

- Executed bug tests on payment and music submission workflows, ensuring a seamless user experience on the Elevator Mag website
- Established and managed the Elevator Mag Discord server, implementing security functions and automation bots to foster an interactive community

PROJECTS

TypingArena | *Next.js, TypeScript, Tailwind CSS, Supabase, WebSockets, Framer Motion*

2025 – 2026

- Built a competitive multiplayer typing test web app with ranked 1v1/2v2 ELO-based matchmaking and real-time WebSocket gameplay
- Implemented user authentication, match history tracking, and live leaderboards using Supabase (PostgreSQL)
- Designed a per-keystroke verification system to prevent leaderboard manipulation in competitive matches

Caldera | *Expo, React Native, TypeScript, Supabase, Mapbox, Gemini API*

2025 – 2026

- Built an iOS hiking companion app with interactive Mapbox trail maps, search/filtering, user reviews, and gear loadouts; currently in TestFlight beta
- Integrated a Gemini API assistant for trail Q&A, gear loadout analysis, and national park information
- Architected a Supabase Postgres backend with geospatial queries for trail data, marketplace listings, and user profiles

MUKSCAN | *Discord.js, Gemini Vision API, OpenCV, Node.js*

2025 – 2026

- Built a Discord bot that estimates Pokémon card grades from user-submitted photos using Gemini Vision and OpenCV preprocessing
- Integrated live market pricing data and designed slash-command flows for grade breakdowns and pricing history

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, HTML/CSS, Pine Script

Frameworks & Libraries: React, Next.js, React Native, Expo, Tailwind CSS, shadcn/ui, Framer Motion

Tools & Platforms: Git, GitHub, VS Code, Vercel, Supabase, Mapbox, Node.js, Discord.js

Other: REST APIs, WebSockets, PostgreSQL, Gemini API, OpenCV, Responsive Design
