EDUCATION

University of Houston

Houston, TX

BS in Computer Information Systems

August 2022 – May 2027

- Relevant Coursework: Applications Programming (Python), Information Systems Application Development, Web Application Development, Information Security, IS Infrastructure & Networking

EXPERIENCE

Piano Lesson Teacher

September 2024 – Present

Sugar Land Music School

Houston, TX

- Provide weekly piano lessons to 20+ students with 1-on-1 private instruction tailored to each student's goals, tracking progress and delivering constructive feedback
- Develop structured lesson plans to build musicality, theory, and technical abilities while fostering a positive learning environment

Restaurant Host

February 2023 – February 2024

Jinya Ramen Bar

Houston, TX

- Welcomed and seated guests while promptly addressing requests and inquiries to ensure high customer satisfaction
- Managed the waiting list and organized seating arrangements, optimizing table turnover and reducing wait times during peak hours

Digital Operations Assistant

March 2021 – December 2022

Elevator Magazine

Chicago, IL

- Developed and executed comprehensive bug tests on payment and music submission workflows, ensuring a seamless user experience on the Elevator Mag website
- Reviewed and curated submitted music through the site's content management system, maintaining quality standards and streamlining the approval process
- Established and managed the Elevator Mag Discord server, implementing security functions and automation bots to foster a secure, interactive community

PROJECTS

TypingArena | *Next.js, TypeScript, Tailwind CSS, Supabase, WebSockets, Framer Motion*

2025

- Built a competitive multiplayer typing test web app with ranked 1v1/2v2 ELO-based matchmaking and real-time WebSocket gameplay
- Implemented user authentication, match history tracking, and live leaderboards using Supabase (PostgreSQL)
- Styled with Tailwind CSS and shadcn/ui components with animated transitions via Framer Motion

Hiking Trail Explorer | *Next.js, TypeScript, Supabase, Mapbox GL, Vercel, SQL*

2025

- Developed a full-stack hiking and outdoor activity platform with interactive Mapbox maps, trail search/filtering, user reviews, and a peer-to-peer gear marketplace
- Integrated an AI-powered assistant using the Gemini API to provide answers to any outdoor related questions, gear loadout analysis, and national park information
- Architected a Supabase PostgreSQL backend with SQL queries for geospatial trail data, marketplace listings, and user profiles
- Deployed on Vercel with server-side rendering and optimized API routes

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, HTML/CSS, Pine Script

Frameworks & Libraries: React, Next.js, Tailwind CSS, shadcn/ui, Framer Motion, Recharts

Tools & Platforms: Git, GitHub, VS Code, Vercel, Supabase, Mapbox, Node.js

Other: REST APIs, WebSockets, PostgreSQL, Responsive Design
